# WORKABLE SOLUTIONS

Imagine a high-quality shelving solution that has virtually endless possibilities for storing and displaying reading, resource and reference material.

The Precision Library Shelving System is the ideal shelving system for academic, corporate, public and legal libraries, as well as general office applications. Our library shelving system has been designed to adapt to both stationary and mobile storage applications. With an extensive range of accessories available, you can be sure to find the perfect solution for a wide variety of media formats and specific storage needs. Available in a wide range of heights, widths and depths, our library shelving system makes full and efficient use of available space.

Precision Library Shelving has the ability to easily expand, be reconfigured and relocated to easily adapt to future storage needs. Units can be wall mounted, single and double-sided freestanding or double-sided mobile on castors.

# ACCESSORIES RANGE

## ACCESSORIES KEY

### 01. Canopy Shelves

Mounted on underslung brackets situated at the top of a shelving unit, canopy shelves provide protection from dust, and at lower levels act as extra display space.

### 02. Underslung Endplates

Use for canopy shelves. One pair of end plates required per single faced shelf, two pair required per double faced shelf.

### 03. CD/DVD Shelf

An angled shelf unit for the display (spine out) of CD's or DVD's. The back slope helps to keep the product on the shelf.

### 04. CD/DVD Display Shelf

An angle display shelf with mid point horizontal ledge to provide 2 levels of CD or DVD display.

### 05. CD/DVD Display Rack 2 Tier

A range of display options which can be used together or individually to effectively display the latest range of multi-media titles.

### 06. CD/DVD Display Rack 4 Tier

A range of display options which can be used together or individually to effectively display the latest range of multi-media titles.

### 07. Zig Zag Shelf Display

This stand sits onto any standard flat upstanding shelf and provides an attractive display for paperbacks, while promoting ease of selection; ideal for displaying new releases.

### 08. Selecta Shelf

A further option for displaying magazines or periodicals, up to 14 clear angled Perspex dividers create spaces for 15 easily accessible titles to be displayed and protected.

### 09. Magazine Shelf

A sloping display shelf with reinforced 100mm upstand front for display of bulk magazines and periodicals.

### 10. Magazine Display Shelf 2 Tier

A fixed multi-tiered angled shelf unit for the display of magazines. Available as 2 tier or 3 tier options.

### 11. Magazine Display Shelf 3 Tier

A fixed multi-tiered angled shelf unit for the display of magazines. Available as 2 tier or 3 tier options.

### 12. Hanging Bag Rail

For storage of 'coat hanger' style hanging storage bags. Used with 203mm over slung endplates.

### 13. Pull Out Reference Shelf

A pull out work surface that can be incorporated into a shelving layout. Generally used as a temporary reading or reference space within a standard bank of shelving.

### 14. Hinged Shelf

This kit provides for the display of current magazines and periodicals on a 'lift up' sloping shelf, whilst storing back issues on a flat shelf behind. Each kit includes a hinged sloping shelf, a flat storage shelf and a special pair of endplates. Note that allowance is required for a shelf and endplates to the base of each periodical run.

**ACCESSORIES  
KEY CONTINUED**

**15. Browser Bin**

Complete with adjustable dividers, browser bins are ideal for 'face out' storage and display of items such as picture books.

**16. Uptilt Endplates**

Angled endplates set to a 15 degree pitch, used with uptilt shelves. One pair of endplates required per shelf.

**17. Uptilt Shelves**

Designed for easier viewing and access to books at lower levels, these shelves tilt upwards at an angle of 15 degrees.

**18. Stayput Book Support**

Original 'Precision' bookend features non slip rubber feet, preventing stacks of books from moving.

**19. Bookshelf Indicator**

Bookshelf indicators sit over the front edge of a standard flat library shelf and used to separate library categories. Applied vinyl graphics can be added to the front spine to indicate specific categories and ranges (alphabetic or dewey decimal). Graphics are not included as part of the standard product.

**20. Bookend**

An 'L' shaped bookend provides sturdy support for any size book.

**21. Slotted Shelf Endplates**

Endplates to match the overall height of the slotted shelf unit. One pair of endplates required per shelf.

**22. Slotted Shelf Back**

A slotted back panel which is used in conjunction with a slotted shelf. Slots punched to 25mm adjustments.

**23. Slotted Shelf**

A slotted shelf which is able to accept steel shelf dividers when slotted shelf back is used. Slots punched to 25mm adjustments.

**24. Slotted Shelf Divider**

Adjustable steel divider.

**25. Magazine Waterfall Shelf 6 Tier**

Multiple vertical shelves with acrylic fronts for mass display of magazines. Available as 3 tier or 6 tier options to maximise exposure of magazines. Each tier has a full width clear acrylic protective front.

**26. End Panels - Plain**

Attached to the end of shelving runs, plain end panels are used to define library sections, identify aisle contents, or simple to provide aesthetic relief. The end panels are attached to the posts utilising the 4 spare outer tie strut screws.

**27. End Panels - Display**

Attached to the end of shelving runs, display end panels are used to define library sections, identify aisle contents, display material, or simply to provide aesthetic relief. The end panels are attached to the posts utilising the 4 spare outer tie strut screws. The vertical slots are designed to hold standard 600mm wide shelving and accessories, whilst the circular punchings accommodate angled display shelves.

**28. End Panel Display Shelf**

An angled display shelf that clips into the circular holes of a display end panel.
